- HTML 5
- CSS 3
- Javascript (ES5, ES6)
- Typescript
- React
- Redux (RTK, RTK Query)
- SASS, SCSS
- Webpack
- GIT
- Adaptive and responsive UI
- Next JS
- React Testing Library

## Experience

### React Frontend Developer

*2021 - Present*

#### Moscow credit bank, Russia

- Working in a big team (frontend, backend developers) in close collaboration with managers, designers, testers, business partners and analysts
- Building and supporting SPA applications using React
- Performing code reviews and helping over developers
- Work on SCRUM and AGILE methodology
- Daily using Jira, Confluence, GitLab, Webstorm
- Interviewing frontend developers

## Education

### • Economic security

*2016 - 2021, Russia, Moscow*

Russian University of Transport

### Frontend courses

### • MCB IT Academy

*2021, Russia, Moscow*

## My Achievements

### Corporate

- I have been trusted to conduct new employee interviews and make hiring decisions.
- As a result of high qualification skills, I was assigned to train newcomers as my students.
- I speak at the intrabank meetings, where I talk about relevant front-end technologies.

### Freelance

- Created a website for a young designer
- Created a website for a tattoo artist

## My Hobbies and Interests

I am involved in a local amateur hockey team, where we play friendly games on the weekends and where I help kids get on the ice for the first time.

Earlier with this team I took part in a series of games between Israel and Russia.

In addition to sports, I am fond of numismatics and travel. Thus, I try to bring local coins from each country.

Finally, my passion is technology and I always look forward to a new release where I can learn about new opportunities in this area.
